

### RECYCLED SOLUTIONS FOR PARKING AREAS

#### ENVIRONMENTALLY FRIENDLY AND SAFE

Help eliminate a serious environmental problem by recycling plastics that would normally go to landfills.

Recycled plastics are turned into valuable, durable products that last a lifetime. Incredibly strong!

Beautifies and protects the environment and your parking area.

Safely eliminates the dangers of exposed reinforced steel rods that occur with broken concrete parking blocks.

#### DURABLE, HEAVY-DUTY CONSTRUCTION

Constructed of 100% recycled, heavy duty plastic.

Stocked in three models - Blue - model number RPC-366-BL, Gray - model number RPC-366-GY and Safety Yellow - model number RPC-366-YE.

Optional hardware available. In-stock size: 4" high x 6" wide x 6' long.

Weighs only 35 pounds.

7 year full warranty against breakage. 50 year limited warranty. (Warranty details available upon request.)

#### ECONOMICAL AND COST-EFFECTIVE

Long, durable product life eliminates frequent and expensive replacements.

Bright, molded-in color never need costly painting or maintenance.

Maintains an attractive, colorful appearance year-after-year - even under the roughest abuse and weather conditions.

Easy and economical one-person installation and relocation.
