

Polyurethane top coated mat provides improved resistance to abrasion and chemical resistance. Non-directional, pebble surface is easier to clean than non-coated products. Cushioned comfort to minimize leg fatigue. Resistant to many common fluids and chemicals. 100% chemically blown, polyvinyl chloride foam with a surface coating of heavy duty polyurethane provides durable, extended service and easy maintenance.

**Material:** Sponge vinyl core with polyurethane coated surface.  
**Thickness:** 3/8"  
**Surface:** Pebbled urethane coated  
**Color:** Charcoal black pebble with yellow border.

**Full Rolls**
