

Kitchen Grid Mats are the ideal slip resistant and anti-fatigue matting for the food processing industry. The open surface allows for maximum drainage of waste by-products, keeping the standing area free of slippery matter. The mat is manufactured of animal fat resistant vinyl. The Kitchen Grid mat is extremely durable and long lasting and is resistant to chemicals, oils and acids. Sanitizing additives provide continued anti-fungal and anti-microbial protection. Easily cut to fit any workstation. Mat is certified high slip resistance and meets ASTM 1677:0.8/0.7.

- Material:** Non-porous, animal fat resistant DINP plasticized PVC
- Thickness:** 5/8"
- Surface:** Large open grid surface
- Warranty:** Standard
- Testing:** *Test DIN 51130* - Testing of floor coverings, determination of the anti-slip property
Results: Rating of R11
- Color:** Terra Cotta

Full Rolls

Item No.	Size	Weight (Lbs/Roll)
530R24	2' x 33'	56.10
530R36	3' x 33'	84.15
530R48	4' x 33'	112.20

Cut Lengths

Item No.	Size	Weight
530C24	2' wide up to 33'	0.85 lbs./sq.ft.
530C36	3' wide up to 33'	0.85 lbs./sq.ft.
530C48	4' wide up to 33'	0.85 lbs./sq.ft.
