

# VYLON ENTRANCE MATTING

Durable Vylon Vinyl Link Mats are manufactured from High Quality Extruded PVC cut into links and woven on Galvanized Steel Wire with a Bevel or Square Edge. The PVC links are stain resistant, UV Stable, and the raised ribs on each link helps clean shoes at the entrance while reducing the potential for slips and falls. Durable Vylon Vinyl Link Mats are available in 13 colors to match any décor and available with custom logos to highlight your business. The high quality material and craftsmanship will provide YEARS of use in all applications!

**Material:** Extruded PVC Links 1/2"x2" woven on Galvanized Steel Wires with Bevel (surface application) or Square (recess application) edging.

**Thickness:** 7/16"

**Notes:**

- Recommended Maximum Width is 8'
- Link opening of less than 1/8" provides safe footing for high heel traffic.

**Logos:**

- Artwork must be provided digitally provided as a high resolution JPEG, TIFF or EPS.
- All mats must have a signed approval before processing.

**Ordering Instructions:** Please specify WIDTH (left to right dimension) and Length (Traffic Direction) clearly, color of mat, color of edge, and specify Bevel or Square Edge. Order form available upon request.

Logo mats require a signed proof.

Tolerance: +/- 1/4" for mats with Bevel Edge, +0/-1/8" Square Edge Mats.
