

DURITE

ENTRANCE MATS

Product Overview

INDUSTRIAL/OUTDOOR SCRAPER

Patented in 1923, Durite is one of the toughest, long lasting anti-fatigue mats available today.

Durite, the original rubber scraper mat, helps create foot comfort and safety traction especially where people stand for long periods of time. The open construction provides excellent drainage and dirt retention. Durite mats are easily rolled up for storage. These industrial mats are perfect for entrance and workstation applications, along assembly lines, in front of machines or in aisles and passages. Special sizes, beveled edges and irregular configuration available upon request.

Product Features

- Material:** Rubber links made from recycled tires woven on galvanized wires with open weave surface
- Thickness:** Approximately 5/8" thick
- Options:** Bevel Nosing (BN) or Square Nosing (SN)
- Pattern:** Straight or Herringbone weave

Note: Durite 108 matting is non-directional. All mats will be made in one piece if possible. For mats over 7' wide or 25' long a special handling fee will apply.

Product Measurements

STANDARD SIZES

Herringbone Item No.	Straight Item No.	Size	Lbs/ Mat
108H1725	108S1725	17" x 25"	7.4
